By comparison, the 2022 count surveyed a minimum of 527 individuals experiencing homelessness in Nevada County.

## What is the Point-in-Time Count?

A Point-in-Time (PIT) count is a one-night estimate of both sheltered and unsheltered homeless populations. The PIT count provides the number and demographic characteristics of persons who are homeless on the night of the count, both sheltered in emergency shelter or transitional housing; or unsheltered, on the street or in some other place unfit for human habitation, on the night of the count.

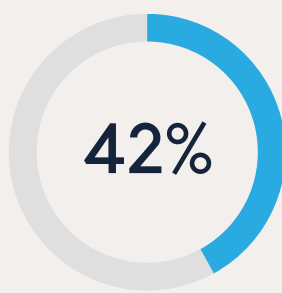

### Substance Use Disorder

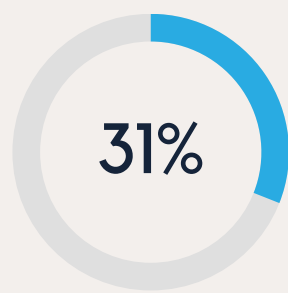

212 individuals self-reported experiencing substance use disorder.

### Mental Health Disability

209 individuals self-reported living with a mental health disability.

### Physical Disability

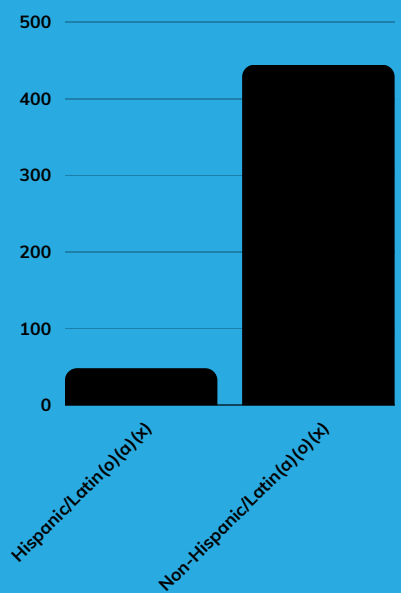

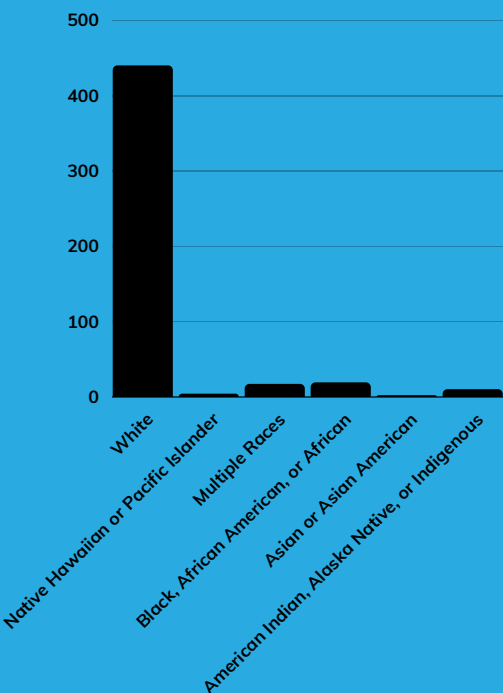

154 individuals self-reported living with a physical disability.

## Race and Ethnicity

The number of individuals who identify as Black, African American, and African represent 4% of total people experiencing homelessness despite accounting for 1% of all people living in poverty in Nevada County (1).
